Spectrum Waterglass® is a natural surface texture created by stretching the hot glass sheet while it is still in a pliable state. The result is gentle, rolling waves that resemble the surface of a lake or stream. The stretching process also renders a highly pristine surface & a slightly narrower sheet.

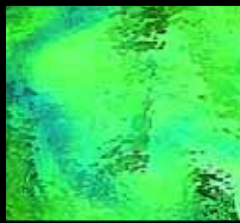

Though many imitators have tried, mechanically-rolled patterns simply cannot approach the subtle, delicate nature of the true Waterglass texture.

• 10 Different colors
• Always includes Black and Clear
• A mix of Transparent and Opalescent Glass
• Always includes some Premium Priced product (Reds, Yellows, Oranges, Pinks, OpalArt™, Spirit™, Hi-Fire Iridescents or Rare Earth Tones)

UROBOROS NOODLES & STRINGERS

Noodles resemble the familiar pasta fettuccini. 5mm width makes them suitable for creating attractive imagery. They can be pre-formed using a candle or torch, and used in beads, stacked with stringers, fused to create Murrini, overlapped, woven and tack fused to create baskets, etc. Edges are fire polished.

Noodles: 5mm wide x 1mm thick, 445mm long (17.5").

Approx. 13 pcs. in each tube.

Stringer: 1mm diameter x 445mm long (17.5").

Approx. 52 pieces in each tube.

Both: 5 oz. net wt. (142 grams) packed in a transparent plastic tube.

**New colors.

Each color may be purchased in powder form, or three different sizes of frit. Neatly packaged in transparent bottles for easy color recognition and storage. Net wt. 8.5 oz. (241g).

When ordering frits, specify grain size by adding the numbers below to the end of the color code.

- Powder size (-01)** .005 - .01" (.13 - .25mm)
- Fine Frit (-02)** .01 - .03" (.25 - .75mm)
- Medium Frit (-03)** .03 - .1" (.75 - 2.5mm)
- Coarse Frit (-05)** .1 - .3" (2.5 - 7.6mm)

UROBOROS SYSTEM 96 CASTING FRIT

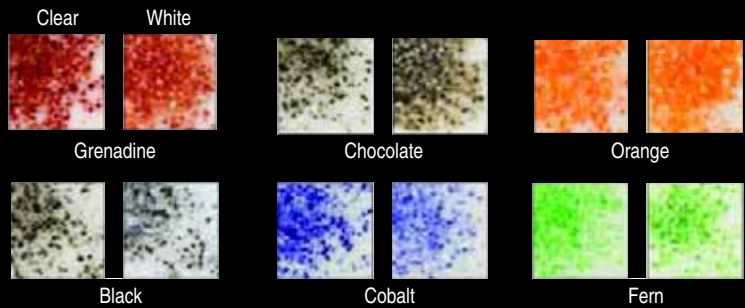

8.5 oz (240g) jars. Larger "coarse" frit pieces. The larger size makes them ideally suited for mosaic work and especially good for casting. The result is more transparent than the typical matte result from finer frit.
